PROFESSIONAL SUMMARY

Multilingual Junior IT Project Manager and Cloud Developer nearing graduation in Cloud Application Development from WSB Merito. While completing my degree and building a comprehensive React frontend capstone project, I developed a deep, active interest in workflow automation and AI-assisted engineering. Recognized for an out-of-the-box approach to problem-solving, I combine modern AI tooling (Gemini API) with technical infrastructure knowledge and practical soft skills gained through client-facing operational roles. Ready to optimize Agile workflows and drive seamless project delivery.

CORE COMPETENCIES

- **Hard Skills:** Frontend Web Dev (React, HTML, CSS), AI-Assisted Dev (Python, Google Gemini API), AWS, Docker.
- **Problem Solving:** Adept at finding non-standard, highly efficient solutions to technical and organizational blockers.
- **Languages:** Ukrainian (Native), Polish (Fluent), English (B2+ - Ambitious and continuously improving).
- **Soft Skills:** Cross-functional communication, adaptability in high-pressure environments, strong time management.

TECHNICAL PROJECTS

Frontend Web Application (University Capstone)

2026

React, HTML, CSS

- Designed and developed a comprehensive web application prioritizing responsive design and user experience.
- Utilized modern frontend frameworks to build interactive UI components and manage application state efficiently.

AI Delivery Assistant (Meeting Transcript Parser)

2026

Python, Google Gemini API, JSON

- Developed an automated pipeline that ingests raw client meeting transcripts and processes them via the Gemini LLM.
- Designed strict system prompts enabling the model to act as an Agile PM, isolating executive summaries and risks.
- Configured output generation of standardized, production-ready Jira tickets in JSON format.

Serverless Cloud Data Ingestion Pipeline

2026

AWS (S3, ECR), Docker, Python, Cursor AI

- Architected a serverless cloud pipeline periodically fetching real-time external API data for the Wrocław region.
- Containerized the Python script using Docker and securely deployed the build to Amazon Elastic Container Registry.

PROFESSIONAL EXPERIENCE

Logistics & Delivery Specialist

1 Year

- Mastered time management and route optimization in a high-pressure, fast-paced environment.
- Developed strong customer-facing communication skills and conflict resolution under strict delivery deadlines.

Freelance Web Designer

Freelance

- Translated client business requirements into functional, aesthetic web interfaces.
- Managed end-to-end project communication, setting clear expectations and delivering results on agreed deadlines.

IT System Administrator Assistant

6 Months

- Supported core IT infrastructure maintenance, troubleshooting hardware and network anomalies.
- Applied out-of-the-box thinking to resolve daily technical blockers, ensuring continuous operational uptime.

EDUCATION

Uniwersytet WSB Merito Wrocław

Graduation: June 2026

Degree: Programista Aplikacji w Chmurze (Cloud Application Developer)

INTERESTS

- **Competitive Esports (CS2):** High-level amateur player and follower of the professional scene. Develops strategic thinking, deep tactical analysis, and split-second team coordination.

I agree to the processing of personal data provided in this document for realising the recruitment process pursuant to the Personal Data Protection Act of 10 May 2018 (Journal of Laws 2018, item 1000) and in agreement with Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (General Data Protection Regulation).
